

Clearstep™ Practitioner of the Month (September 2011) – Dr Christine Sweeney

Dr Christine Sweeney

Greystones Dental Care

September 2011 Clearstep™ Practitioner of the Month

Dr Christine Sweeney joined as a Clearstep™ practitioner in 2006 and was immediately impressed with how effective the system was. Since becoming accredited with Clearstep™, Dr Sweeney has used our bespoke system frequently to treat a wide variety of cases with an excellent standard of service.

“The clear positioners are comfortable, hygienic and effective. Patient’s love them and often send friends and relatives into the practice because they are so pleased with the results” Dr C Sweeney (2011).

After Dr Sweeney’s traditional orthodontic treatment relapsed when she was in her 20’s, she became very interested in pursuing ‘invisible’ orthodontic systems to help tackle the problems that she once had. Dr Sweeney has undergone Clearstep™ treatment herself therefore she knows and understands the patient experience with Clearstep™ first hand.

Since becoming a Clearstep™ practitioner, Dr Sweeney has seen a positive impact in her practice as well as many benefits to her patient’s confidence, whilst getting them the smile they desire.

“With the recession patients are more careful with their spending but are often happy to have cosmetic work done if the price is right. Simple cases can be far less expensive than fixed appliances” Dr C Sweeney (2011).

Minimum intervention and tooth conservation are of high importance to Dr Sweeney and through using Clearstep™ and other techniques she has been able to treat some tough cases. It is the use of clear aligners in combination with other appliances that enable her to do so with minimal impact on the patient, shorter treatment time, and better results. Not only does this make it easier for patients during treatment, the financial costs are also lowered.

Furthermore, Because Dr Sweeney has worked with Clearstep™ for a number of years, she has had a wide range of cases presented to her. Below are some examples of cases Dr Sweeney has skillfully treated.

We have selected Dr Sweeney as this month's 'Practitioner of the Month' due to her continuing loyalty to Clearstep™, the wide range of cases sent to us and quality at which Dr Sweeney treats them all as well as her commitment to further training through Clearstep™. Through the years we have developed a fantastic working relationship and look forward to many more years of good relations.

If you live in Ireland and are interested in 'invisible' and effective treatment, Dr Sweeney in Greystones Dental Centre could be the solution to your orthodontic issues. To find out more about Clearstep™ treatment at Greystones Dental Centre please call **(01) 2017000** if you live in Ireland or if you live in the UK, **00353 2017000**
